43 CFR 3600 – Mineral Materials

Negotiated Sale Permit Expired – Renewal Required

The West Side Grading Negotiated Sale for mineral materials, sand and gravel, at the site west of Oak City, Utah, expired on May 8, 2008, five years from the date of issuance, as required by regulations. Sales of common-variety mineral materials, such as sand and gravel, are authorized for commercial for-profit organizations under 43 CFR §3600. Your Negotiated Sale site is located in section 35 of Township 16 South, Range 5 West several miles west of Oak City, in Millard County, Utah. The Bureau of Land Management (BLM) case file number for your Negotiated Sale Permit is UTU-78284. Please refer to this number in future correspondence.

A member of the BLM Fillmore Field Office staff conducted a field inspection of the operation location on September 13, 2012. Equipment was in place at the site on the inspection date, and there were recently created stockpiles and surface disturbances within the main pit. Regular production reports have been filed for the site, as required by Federal regulations. Reclamation will be required when your company no longer needs use of mineral materials from the site.

If you wish to continue removal of sand and gravel from the site, then the case file must be renewed, a new contract must be prepared, and documents must be prepared in compliance with the National Environmental Policy Act (NEPA). You must also continue to file annual production reports. Please notify the BLM office in Fillmore, Utah of your intentions at:

Mr. Michael Gates
Fillmore Field Office
Bureau of Land Management
95 East 500 North
Fillmore, UT 84631

If you have any questions, please contact Duane Bays, BLM Fillmore Field Office Natural Resource Specialist, at 435-743-3115, or Jerry Mansfield, BLM Fillmore Field Office Geologist, at 435-743-3125.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael D. Gates", followed by a stylized flourish or second signature.

Michael D. Gates
